20 October 2010

Submitted by
USAF
902d Contracting Squadron (902 CONS)
Randolph AFB, Texas

For
Tejas Premier Building Contractor, Inc.
1711 S. Laredo St.
San Antonio, TX 78207

Citation to accompany SABOC MED Week recognition: As the Commander of the 902d Contracting Squadron, it is my distinct pleasure to recognize an outstanding small business. Tejas Premier Building Contractor, Inc. is a women-owned, HUBZone, 8(a) certified firm serviced out of the SBA San Antonio District Office.

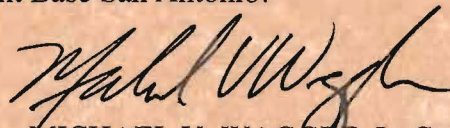

Tejas Premier Building Contractor, Inc. has a team of highly effective professionals that expertly blend their design, project estimating, contract administration, and project management talents with one goal in mind...to deliver superior construction solutions.

During FY 2010 Tejas Premier Building Contractor, Inc. completed two construction projects at Randolph AFB with a total value of more than 5.7 million dollars. While the number of projects was small, the impact of their exceptional performance was tremendous.

In renovating Hangar 71, Tejas Premier took a WW II aircraft hangar serving as a gym and converted it into a highly effective Mobility Processing Center that will enhance our deployment functions for years to come.

During the Parr Officers' Club Kitchen renovation, Tejas Premier Building Contractor Inc.'s unflappable commitment to their customer shined through time and time again. These responsive professionals displayed a reassuring confidence during every phase of the project which enabled them to consistently provide superior results. They huddled with multiple stakeholders to successfully overcome numerous obstacles resulting from various, successive differing site conditions, a myriad of issues dealing with the kitchen equipment by a different contractor, and time sensitive, constraining environmental demands. Their efforts resulted in exceptional construction, timely project completion, and high customer satisfaction.

Once again, an 8(a) company has forged an exceptional relationship with Randolph AFB! A relationship that we hope will continue! Without a doubt, Tejas Premier Building Contractor, Inc. is worthy of this recognition. The 902d Mission Support Group and 502d Air Base Wing are proud to have them as a member of Joint Base San Antonio!

MICHAEL V. WAGGLE, Lt Col, USAF
Commander, 902d Contracting Squadron
